Including Line Filter |
| <input type="checkbox"/> BIPAC7300G Billion W/less 11g 4 Pt ADSL2+ Modem/Router w/SPI Firewall/QoS | \$ 199.00
Including Line Filter |

Modem Shipping Details: (If modem is supplied as part of the installation)

Name: _____

Company (if applicable):

Address (not a P.O. box): _____

City: _____ State: _____ P/Code _____

Shipping Information: Earthlink use Australia Post for shipping modems and filters. Usual shipping times anywhere in Australia are two working days. Should you not be at the above premises when they try to deliver your modem, a tag will be left at your address, and you will be needed to pick it up from the local post office.

Line Filters: For each phone that is connected to the same line as your ADSL modem, you will need a line filter. Eg, if you have 3 phones in your house connected to the same line as your ADSL modem, you will need to purchase additional in-line filters.

If you have a "back to base" monitored alarm system connected to the same phone line as your ADSL modem, you will need to get your alarm company to install a filter on the alarm as well. In this case we recommended the central splitter below. Contact your alarm supplier for more information.

In-Line Micro filter

Plugs between the phone outlet and the telephone (self installation)

Yes I require _____ In-Line filters at \$13.00 each

Central Splitter

This splitter should be installed by a licensed ACA installer. It splits the line into ADSL and normal phone line paths.

Yes I require _____ In-Line filters at \$20.00 each

No shipping charge applies if Line Filters are ordered at the same time you place your ADSL application. Shipping charges are normally \$15.00 for orders not placed with a modem.

I verify that all the information is true and correct and authorise Reverence Earthlink Internet Services to debit any additional charges incurred above to the credit card supplied on my ADSL application form. I verify that I have read and agree with Reverence Pty Ltd's Terms and Conditions.
